

**"HOW TO HAVE A
MARKETING TEAM
AT YOUR FINGERTIPS...
NOT AT YOUR OFFICE"**

A FREE ONLINE WEBINAR BY REALSUPPORT, INC.

You've signed the listing agreement and promised your client the moon when it comes to marketing the property. Now, you have to figure out how you're going to implement all those marketing tools, have time to devote to your other clients, attend to your office business and maybe, just maybe, have a life.

Sound impossible? Not if you join the growing ranks of real estate professionals who are using virtual assistants (VAs) to handle the tasks that frequently get put on the back burner. Marketing Coordinators are VAs who take care of everything related to getting the word out on a new listing—writing and placing newspaper ads, designing brochures and fliers, developing online virtual tours and much more. VAs work at their own offices, using their own equipment and charge only for the work they do for you.

In this **FREE Online Webinar** Carrie Gable, President of RealSupport, Inc., will teach you about the benefits of working with Marketing Coordinators (Virtual Assistants) which include:

- Promising your clients custom marketing materials and online website exposure in just 24-48 hours—and being able to keep that promise
- Utilizing state-of-the-art marketing technology, without having to learn it yourself
- Hiring experts without the hassle of overhead, payroll, vacations and sick time
- Never turning a client away again due to lack of time
